**WILFRIED WOLLBOLD**

Global Brand Manager,
FRUIT LOGISTICA

FRUIT LOGISTICA celebrates its 25th anniversary in Berlin! Come celebrate with us! Over the next three days, the exhibition will underline the fact that Berlin is the best place to do business with all the key players in the international fresh produce sector.

This anniversary year has a record participation of more than 2,900 exhibitors from 85 different countries and from every link in the value chain. Three additional halls, 8.1, 10.1 and 11.1, next to our landmark “Funkturn” radio tower illustrate this point. And this year more than 70,000 trade visitors from all over the world are expected here in Berlin. With this, probably the largest single gathering of fresh produce professionals ever, we invite you to share your passion about fruit and vegetables and celebrate it during the next three days at FRUIT LOGISTICA: simply use the hashtag #25fruits to post your impressions online.

FRUIT LOGISTICA places the greatest importance on providing exhibitors and visitors alike with the very best business opportunities, the best information, and the best innovations. New this year is the free Wifi service on our exhibition grounds. FRUIT LOGISTICA's digital hall plan for mobile devices and our digital networking tool at the Virtual Market Place® are other excellent online tools available to you onsite.

Now that last minute online route planning is more convenient: schedule a visit to our official partner country Germany in Hall 20. And check out the details of this year's event programme – the Fresh Produce Forum, the Future Lab, our Logistics Hub and the Tech Stage. All aim to present you with inspiring, innovative ideas and information on key trends in the international fresh produce business. And don't forget to cast your vote for the FRUIT LOGISTICA Innovation Award in the special exhibition area between Halls 20 and 21 to help determine the top innovation of 2017.

I wish you every success with your business and a very pleasant stay in Berlin.

Sincerely

Wilfried Wollbold

FRUITNET WORLD OF FRESH IDEAS

TUESDAY, 7.2.2017 – 13.30–18.30 – HALL 17, KLEINER STERN

FRUITNET WORLD OF FRESH IDEAS is the exciting new international networking event at FRUIT LOGISTICA. It focuses in a totally new way on the latest trends and the newest innovations in the world of fresh produce.

Drawing on a global network of fresh insights and contacts, Fruitnet Media International's top journalists bring together international experts to explore what's new and happening in the world of fresh produce today.

Video, audio, online polling and much more will create a new multichannel experience, taking you on a journey of innovation through the global fresh produce supply chain.

From the newest trends in food retail to the latest developments in production, packaging and logistics, FRUITNET WORLD OF FRESH IDEAS spotlights the most important trends in the global fresh produce business, helping you to make better business decisions every day.

THE FUTURE OF FRESH PRODUCE

Dr. David Bosshart presents the latest Gottlieb Duttweiler Institute Trend Report on the fresh produce sector and takes a long term look at developments and innovations.

GROWERS & SUPPLIERS

A multimedia look at the biggest trends and innovations worldwide including:

- Zespri talks global branding strategies
- Fruit trees connecting to the internet
- Robot picking becomes reality
- A new approach for the apple business

BUYERS AND SHOPPERS

The major changes and trends in global demand and distribution including

- Shock of the new in online grocery
- How social media can boost your sales

- China's impact on fresh produce
- A world tour of packaging innovation

RESULTS OF THE GFK CONSUMER SURVEY ON FRESH PRODUCE IN THE SUPERMARKET

- Helmut Hübsch, Consumer Panels, GfK SE, Germany

PRESENTATION OF THE FRUCHTHANDEL MAGAZINE RETAIL AWARD 2017

PLUS

- 2 networking breaks
- Global news round-up
- Online polling: Your chance to voice your personal opinion
- Invitation to the FRUIT LOGISTICA Welcome Reception

Simultaneous translation in English, French, German, Italian and Spanish.

DELEGATE FEE

150.– EUR
including 3-Day ticket to FRUIT LOGISTICA
102.– EUR
FRUITNET WORLD OF FRESH IDEAS only

All you need to grow in Asia

ASIA FRUIT LOGISTICA and FRESH PRODUCE FORUM CHINA offer an unrivalled combination to unlock the opportunities in Asia and China.

ASIA FRUIT LOGISTICA, Asia's only dedicated fresh fruit and vegetable trade fair, is set for further standout growth when it returns to Hong Kong this September. Taking place on 6-8 September 2017 at Hong Kong's Asia-World-Expo Center, ASIA FRUIT LOGISTICA is the gateway to opportunities in Asia, drawing high-level buyers and trade visitors from across Asia and the rest of the world, and from throughout the value chain. More than 11,000 trade visitors attended last year's event, and two-thirds of them came from 20 different Asian countries.

"ASIA FRUIT LOGISTICA is the only exhibition that can offer you top-quality business contacts, insights and information covering all key areas of the fresh produce trade across the entire Asian region," explains Wilfried Wollbold, commercial director of event organiser Global Produce Events (GPE). "Over the past ten years, the event has built an outstanding

reputation and cemented its position as the leading continental trade show for fresh fruit and vegetable marketing."

FRUIT LOGISTICA and ASIA FRUIT LOGISTICA – premier global and continental trade shows respectively – are now complemented by FRESH PRODUCE FORUM CHINA, which zones in on opportunities in the fast-expanding and increasingly crucial Chinese market. Launched last year, FRESH PRODUCE FORUM CHINA is the leading national conference and expo event for the Chinese business. This year's event takes on 23-25 May in Hangzhou, the silicon valley of China's East Coast and a booming consumer market. The two-day forum brings together the decision makers from across the Chinese business to network and discuss the key trends affecting the trade.

Visit us at the ASIA FRUIT LOGISTICA booth in Hall B CityCube/A-16 for more information.

The industry's top prize for innovation in fresh produce

The FRUIT LOGISTICA Innovation Award 2017 will be presented again this year on the final day of the exhibition in Berlin. The "FLIA" is unique in that the winner is chosen exclusively by the 70,000 visitors to the trade fair.

The FRUIT LOGISTICA Innovation Award is presented by FRUIT LOGISTICA and FRUCHTHANDEL MAGAZINE and is the most prestigious and sought-after award for innovation in the whole of the international fresh produce industry.

Almost 70 promising innovations were submitted for this year's competition. They ranged from new marketing ideas and technological innovations, through novel packaging concepts, to convenience products and new fresh fruit and vegetable varieties. In December, a jury of experts from the retail, wholesale distribution and technical service sectors met in Düsseldorf to select the ten best innovations for the final round of the competition. Details of the ten nominated products are contained on the following pages.

Visitors to FRUIT LOGISTICA can see the nominated products for themselves in the special FLIA exhibition area in the foyer between Halls 20 and 21 as well as at the stands of the nominated companies.

Vote for your choice of the best innovation of the year using the voting form next to page 33. You may vote during the first two days of the exhibition. Voting forms with contact details have the chance of winning one of five Apple iPad minis. See page 30 and 33 for further details. The overall winner of the FLIA 2017 will be announced on Friday, 10 February at 14.30 hrs at a special award ceremony which is open to all visitors in the FLIA exhibition area between Halls 20 and 21.

So vote now for your favourite innovation!

Vote for the best innovation and win an iPad mini!

The winner of the FRUIT LOGISTICA Innovation Award is exclusively chosen by the visitors to FRUIT LOGISTICA. We invite you to vote for the best innovation of the year using the voting form next to page 33.

All signed voting forms which include personal contact details will be eligible for the special prize draw and the chance to win one of 5 Apple iPad minis*. Just complete the voting form and hand it in at one of the official FRUIT LOGISTICA Information Desks or in the FRUIT LOGISTICA Innovation Award exhibition area in the Foyer between Halls 20 and 21.

The first five voters pulled out of the hat will each win an Apple iPad Mini. Winners will be announced on Friday, 10 February at 14.30 hrs at the special award ceremony.

* Der Rechtsweg ist ausgeschlossen.

BE-Cube Demountable Pallet Box

The BE-Cube is a fully collapsible spacesaving multi-purpose pallet box system for storing and transporting products such as potatoes, onions, nuts and seeds. The assembly and disassembly of the robust, impact-resistant design is achieved in a matter of minutes. The BE-Cube weighs less than wooden or plastic pallets, but its special construction makes it just as strong. Eight BE cubes can be stacked with a maximum load weight of 900 kg. The BE-Cube Standard is available in the pallet size 1,000 x 1,200 mm. Options include a base opening for easy discharge, a tilting capability, and different big bag and stringer format options. Market launch: October 2016

Crisp Fresh Watermelon

Crisp Fresh Watermelon is a seedless watermelon with uniquely firm flesh. The characteristic genetic "ultrafirm" feature ensures that the processed product does not fragment so quickly. This specially developed melon variety from Syngenta's new Crisp Fresh product line is characterized by the fact that it loses significantly less liquid than other varieties. The shelf life of the cut product is thus extended to up to 10 days.

The first commercial variety of this new product line is Crisp Delight. It has an elongated shape, a dark green stripe and a dark red flesh. Fruit size is 5-7 kg.

Market launch: December 2015

Syngenta Seeds SAS, France Hall 10.1, Stand A-12
www.syngenta.com

Knox™ – Delayed pinking in fresh cut lettuce

Knox™ is a natural solution which delays the so-called “pinking” in freshly cut lettuce. Oxidation at the edges of a fresh cut lettuce, the natural wound reaction of trimmed cells, manifests itself as a pink-brown discoloration. This unattractive colouring leads to rejection by consumers and increased waste of products which are otherwise qualitatively unimpaired. Knox™ delays pinking and prolongs the shelf life of cut lettuce by 1 to 2 days. Varieties with this new feature include Cos, Iceberg, Batavia, Butter, Salanova Crispy, Salanova Butter.

Market launch: May 2016

Rijk Zwaan Zaadteelt en Zaadhandel BV, Netherlands Hall 1.2, Stand A-14

Mango Peeler & De-Cheeker

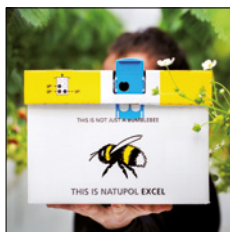

The Mango Peeler & De-Cheeker peels and removes the cheeks of mangoes at high volume in a single process. Dynamic insert clamps adjust automatically to the respective mango size and grasp the fruit firmly. Specially developed spikes transport the fruit, and the specially developed ZTI Elastospring springs position the mango optimally for an exact, precise peeling cut with finely adjustable peeling knives.

Every feature of the Mango Peeler & De-Cheeker ensures careful and gentle treatment of the fruit with excellent fruit yield and optimum shelf life. Capacity is 40 pieces/min.

Market launch Februar 2016

ZTI Smart Machines, Netherlands Hall 3.1, Stand A-05

Natupol Excel – Bee Vision

Natupol Excel – Bee Vision is a system which helps to guide bumble bees back to their hive under unfavourable artificial lighting conditions in greenhouses during the darker months of the year.

Reflective signals and the special coating on the boxes help the bees to find their way and save energy when orientating themselves under unnatural lighting conditions.

They can thus expend their energy better on the crucial task of pollinating fruit and vegetable greenhouse crops.

Market launch October 2016

Koppert Biological Systems, Netherlands Hall 1.2, Stand D-08

SoFruBox® System

The SoFruBox® system is an environmentally friendly modular packaging system optimized for the cooling and ventilation of fresh fruit. Compatible 250 g or 500 g SoFruMiniPak punnets can be inserted exactly in the bottomless SoFruBox trays. A system with one SoFruBox and six 1 kg containers is also available.

Numerous ventilation slots and a special support bracket, which allows the removal of the base of the larger box, ensure that the contents are better ventilated and remain fresher for longer.

Market launch April 2016

SoFruPak, Poland Hall B CityCube, Stand E-16

www.sofrupak.com

Streamer Automatic Spiralizer

The high-volume Streamer Automatic Spiralizer cuts vegetables such as carrots, zucchini and sweet potatoes into pasta-like noodles of various sizes and shapes.

The vegetables can thus be transformed into a wide range of thin or thick spaghetti, tagliatelle, rings or large spirals. From the stems and cores and other irregular parts, products like vegetable gnocchi can also be produced.

The machine can be operated by just one person and uses a range of interchangeable cutting blades.

Market launch June 2016

Turatti srl, Italy Hall 3.1, Stand C-05

www.turatti.com

Sustainable Grow Bag for Tasty Tomatoes

The Sustainable Grow Bag is an alternative to conventional stone wool bags with 100% fully compostable foil and organic substrate. It can be used in growing tomatoes but also for other types of greenhouse vegetables such as aubergines, cucumbers, strawberries or courgettes.

The Sustainable Grow Bag offers growers significant advantages in terms of sustainability with regard to pesticide use and waste. Viruses and plant diseases can also be neutralized. The Grow Bag is 18 cm wide and available in lengths from 60 cm to 120 cm.

Market launch March 2016

Greenyard Horticulture Belgium, Belgium Hall 5.2, Stand A-03

www.greenyard.group

The Cracking Monkey – Pili Nuts

The Cracking Monkey – Pili Nuts come from the Philippines. Osmotic pre-germination increases the nutritional value and levels of vitamin E are several times higher than those of other nuts. Using a unique patented method, The Cracking Monkey – Pili Nuts are pre-scored for easy opening and sold with a special stainless steel cracker tool made of recycled cutlery. The nuts are sold in environmentally friendly cotton bags printed with soya-based inks. Frischebox thus guarantees a product which is completely environmental friendly. Pili Nuts are available in 300 g, 500 g and 1,000 g bags as well as in larger 3 kg and 5 kg sacks. Market launch June 2016

Die Frischebox GmbH, Germany Hall 6.2, Stand C-07
www.thecrackingmonkey.de

yello® – The Color of Taste

yello® – The Color of Taste is an apple of the Shinano Gold variety originally grown in Nagano, Japan. It is a cross between Golden Delicious and Senshu and its name comes from its characteristic yellow, alabaster-like skin. Its flesh is juicy, crisp and sweet. Special characteristics include low susceptibility to russetting and bruising, firmness levels up to 7.8 kg/cm², and Brix values between 14.7-15.5. The yello® brand is registered in more than 60 countries worldwide. yello® – The Color of Taste is available in the sizes 70-75mm / 75-80mm / 80-95mm / 85-90mm / 90+mm.

Market launch September 2016

VI.P / VOG, Italy Hall 4.2, Stand B-11

Voting rules

 Messe Berlin

FRUCHTHANDEL
 MAGAZINE

- Votes must be made by 18.00 on Thursday, 9 February 2017 at the latest. Voting forms must be handed in at one of the official FRUIT LOGISTICA Information Desks in the exhibition halls and foyers, or at the special FLIA exhibition stand in the Foyer between Halls 20 and 21.
- Your vote must be made on the special voting form attached and you must provide at least your name, company and your signature to make a valid vote. If you wish to take part in the draw for one of five Apple iPad Minis you must also add a valid mobile contact telephone number. **Your personal details will not be used or stored for any other purpose.**
- Only ONE vote per person is allowed.
- You are not allowed to vote for a product if you or a member of your family works in any way for the company presenting the product or for the original producer/manufacturer of the nominated product.

FOLLOW ME!

The Organic and Convenience Routes help you select and find exhibitors at FRUIT LOGISTICA who specialize in these product categories quickly and easily.

A passion for fresh fruit

Direct and efficient supply from the grower to the retail trade

Global Fruit Point (GFP)

concentrates on direct sourcing of conventional and organic fruits from overseas.

Our main import products include deciduous, citrus, berries, avocados, lychees, mangoes, melons, pineapples, and pomegranates. Our handling structures in Rotterdam and Hamburg guarantee smooth logistics all over Europe as well as highest quality and food safety standards.

GLOBAL FRUIT POINT
A Passion for Fruit

fresh marketing communications it's what we do best

Fresh ideas for fresh produce

It is passion for fresh produce which drives us! The marketing agency FMC has been working in close cooperation with Fruchthandel Magazine for more than 35 years. We know the fresh produce sector, and we see ourselves as part of the industry.

Bringing the Freshness to Fresh-cut. Always.

Food Freshly works with fresh-cut processors worldwide to improve product quality, lower cost, and increase efficiency. Our organic antioxidants increase the shelf-life of cut produce to over 21 days.

Menschen mit Märkten, Märkte mit Menschen

**Frische braucht Handelskompetenz,
Vielfalt und Menschen**

Treffen Sie die deutschen Frischemärkte auf der Fruit Logistica 2017 und profitieren Sie von Vielfalt, Vernetzung und Veränderung.

COBANA FRUCHTRING
AUF DER FRUIT LOGISTICA 2017
HALLE 6.2 | STAND A-03

8|9|10 FEBRUAR 2017, BERLIN

Nah dran.

... an den wichtigsten Anbauregionen weltweit.

Ausgewählte Erzeuger und ein lückenloses Qualitätsmanagement entlang der gesamten Lieferkette: So garantieren wir dem LEH Warenprogramm, die seinen definierten Standards entsprechen. Mit Direktbelieferung aus der Produktion stellen wir sicher, dass die Früchte ohne Umweg und exakt nach Kundenwunsch zur Verfügung stehen. Mit Kosteneffizienz und voller Transparenz setzen wir Maßstäbe für Wettbewerbsfähigkeit und Sicherheit im modernen Geschäft mit der Frische.

... an unseren Kunden in Deutschland.

Flächendeckende Präsenz und komplette eigene Service-Logistik: Die selbstständigen Unternehmer von Cobana Fruchtring fokussieren sich mit viel Engagement und Erfahrung auf individuelle Kundenanforderungen und organisieren alle warenbegleitenden Dienstleistungen wie Verpackung, Reifung und Auslieferung.

www.cobana-fruchtring.com

Apples from South Tyrol: top of the range.
